

LIFESIZE® ICON 300™

Tailored for huddle room collaboration

Big collaboration for small spaces

The importance of huddle rooms continues to grow in today's modern workplace, providing spaces for efficient and effective collaboration. Transform your huddle rooms into communication focal points with Lifesize Icon 300. It's perfectly tailored for today's smaller huddle rooms. The brilliant 4K presentation quality and best-in-class audio will reset expectations of what video communication should be. Teams feel more connected, and the ease of use encourages increased engagement and less hands-on time from IT admins.

Designed to make meetings easy, Lifesize Icon 300 is purpose-built with the features essential for small meeting spaces and the quality and reliability businesses demand. Its ultra-wide field of view allows all participants to be seen easily, even in tight spaces, and its flexible design lets you mount it where it works best for you. The seamless integration of Lifesize Icon 300 with the Lifesize service delivers an unprecedented communication experience that makes it easy to collaborate and feel like you're there.

Built for exceptional communication

Share your content with stunning 4K presentation quality

Tailored for today's huddle rooms

Ultra-wide field of view to easily see meeting participants

Never miss a word

Incredible sound engineered with Opus audio, unmatched in performance for human speech

Choose the best fit for your space

For intuitive meeting and room system control, either select the powerful, all-in-one Lifesize® Phone™ HD or if space is at a premium, opt for the micpod and download the Lifesize Room Controller app to a tablet you provide

Uncompromising value
